A law firm is usually a partnership between lawyers who have come together to offer their expertise to clients under one name. These partners share the profits of the firm as well as the risks (liabilities), and engage other lawyers to work with them as associates. According to The Lawyer UK 200 2019, the below organisations make up the top 50 UK law firms based on annual turnover

### Table of all required calculation

industry	segment	sales	average industry
